EMERGENCY PROCEDURES

IN THE EVENT OF AN EMERGENCY,
PLEASE NOTE THE FOLLOWING PROCEDURES:

FIRE PROCEDURES

Should you discover smoke or fire on your floor, immediately activate a fire-pull station. Manual pull stations are located outside each stairwell door as well as beside any door that is equipped with a magnetic lock. Pulling this emergency device will cause alarm tones throughout the building and will release doors equipped with magnetic locks, including stairwell doors. 351 King Street East has a two stage fire alarm system.

The Venue Supervisor will provide direction in the event of a fire alarm according to the two-stage system:

ALERT TONES (1 PING TONES)

Alert tones indicate there is an alarm condition in the building, but it does not affect your floor. When you hear alert tones, please adhere to the following safety procedures:

1. Stand by and prepare to evacuate.
2. Lights will be turned on, bar service will be paused and music volumes will be lowered.
3. If there is a requirement to evacuate, you will be notified by the Fire Alarm System (Evacuation Tones) and/or Emergency Voice Communication System

EVACUATION TONES (CONTINUOUS TONES)

Evacuation tones indicate that there is an alarm condition in the building that does affect your floor.

When this occurs, please adhere to the following safety procedures:

- Leave the floor via the stairwells.
- Do not carry items such as coffee cups, purses, back packs, etc. down stairwells during evacuation. Do not attempt to use the elevators.
- Once you have exited the building, proceed South to David Crombie Park – away from the building in alarm – and await further Instructions.

Once the emergency has cleared, announcements will be conducted advising that the evacuated floors can be repopulated. Security and Life Safety Officers will conduct sweeps of the stairwells to ensure that all persons who needed to evacuate have done so safely.

EMERGENCY EXITS

Signs are posted throughout the floors indicating locations of emergency exits. Most signs will include an arrow indicating the direction of the emergency exit.

Upon discovery of fire:

- Remain calm.
- Leave fire area(s).
- Close all doors behind you. Do not lock doors.
- Activate the fire alarm system as soon as possible, use the pull station.
- Exit the building via the nearest exit.

- Telephone the City of Toronto Fire Services by dialing 9-1-1. Never assume this has been done.
- Give the correct address: 351 King Street East, the location of the fire, and your name.
- Do not return into the building until it is declared SAFE to do so by a Fire Official.

Immediately upon hearing the fire alarm:

- Remain calm.
- Exit the building via the nearest exit.
- Close all doors behind you.
- Call 9-1-1.
- Listen for instructions.
- If you encounter smoke in an exit, consider using an alternative exit.

When you leave the building:

- Before opening a door, feel the door and the doorknob for heat.
- If the door is hot, remain in the area and ensure the door is unlocked. Dial 9-1-1 and alert them to your location.
- If the door is free of fire and/or smoke, close the door behind you and leave by the nearest exit. Close all doors behind you.
- Assist those who require assistance leaving the building. (Only if safe to do so)
- Use an alternative exit if you encounter smoke in the stairway.

If you cannot leave the building:

- Close the door but leave it unlocked to ensure entry by the Fire Department is possible.
- Dial 9-1-1.
- Seal all cracks where smoke can enter by using wet towels or sheets.
- Keep low to the floor if smoke enters the room.
- Wait to be rescued. Remain calm. Do not panic.
- Listen to instructions.

Meeting Place:

- All Clients, guests and staff should go to David Crombie Park (on the South-West corner of Berkley Street and The Esplanade) and remain at this meeting point until it is safe to return to the building. Only the City of Toronto Fire Department has the authority to declare the building safe to enter.
